

# TREMENDOUS TRUCKS

2023

TREMENDOUS  
TRUCKS

**LIVE FOR THE GRIND!**

**TREMENDOUS Trucks are made of a very durable alloy. Despite the high stability of the trucks, the hollow kingpin technology saves weight.**

**The durometer of the very agile SHR bushings is precisely tailored to the width of each truck and allows optimal turns.**

**The baseplates of the trucks are laser engraved and the hanger comes with a logo print. For perfect customization the trucks are available in different colors: silver, matte black and navy blue.**
